[Calendar Outline For Mac](#)

The screenshot shows a window titled "Tasks" with a yellow background. It contains a list of tasks with various properties and actions:

- Tasks are different from lists because they have a completion box, status bar and can be assigned events in the calendar.
- Edit task properties including event by selecting a task and using the *List > Get Info* menu item or by hovering the mouse over a task until the info button appears to the right.
- ▼  **Status Bar**
  - If you set properties of a task (including properties for calendar events) a status bar will appear to the right of the task.
  - This is an important task with a note.  
- ▼  **Calendar Events**
  - Events are built upon the Calendar app which comes packaged with your Mac. When you assign an event
